## KARIS III

---

Looking for continuous improvements and upgrades into loudspeakers design and new technical solutions aimed to as much realistic and natural sound reproduction as possible, DIAPASON designer Alessandro Schiavi challenged himself looking for something "beyond". Mini-monitor multifaceted KARIS III loudspeakers is really able to let you feel true emotion of live music.

Cabinet wooden staves assembling proceeding has been optimized in order to make the whole cabinet more stable and free from internal resonances.

New Direct Drive woofer manufactured on Diapason specifications by Seas, allows better control and more defined performance at the low frequencies, while 19 mm Seas tweeter provided by wide surround is able to give extraordinary performance in terms of harmonics reproduction. The new RSPCB high thickness printed circuit board on hi-pass filter reduces the dispersion of the electrical signal being assembled directly on the connectors. 8 Ohm impedance module allows easier load for amplifiers also with valves or solid state equipment even at few watts.

Internal wiring by Van den Hul CS12 cables.

# KARIS III

---

## SPECIFICATIONS

Frequency response: 60/20.000 Hz

Bass driver Ø: 110 mm Direct Drive polymetylpenten

Tweeter Ø: 19 mm treated silk soft dome

Efficiency: 87 dB/W/m

Freq. crossover: 3.000 Hz

Nominal impedance: 8 Ohm

Min impedance: 7,2 Ohm/300 Hz

Max rated input voltage: 10 V a.c

Max rated input power RMS: 25 W

Max rated dynamic input power: 75 W

Type: rear-ported reflex speaker

Finish: Canaletto walnut solid wood, Natural Wood finishing

Weight per speaker: 4,5 Kg

Dimensions: (W x D x H) 190x260x285 mm
